BOOKS

concise business reading

- The Concise Advice series was invented by Kevin Duncan and his publisher. It now contains over 40 books, 9 of them written by Kevin and Sarah. Unlike most business books that are too long and padded out with too much material, these books take the full wisdom of wide-ranging business reading and reduces concepts down to their pithy minimum, typically on one spread. This allows the time-pressed executive to grasp ideas at speed and put them into practice straightaway.
- The handy pocketbook format is ideal for training, note-taking and idea generation on the go.** With their highly visual format and minimal copy, the books have a wide international appeal and have been translated into over 20 languages. Sales to date are around the 200,000 mark. Grab a hard copy, or a digital one, use them for team sessions, look at the training, or ask for an in-person session.

How to do things in the right order, cope with too many tasks, get organized, and use the right systems. How to cope with too much email, multiple requests, and tight deadlines. How to 'detox the inbox' and design a working style that works best for them. Also how to present intelligently online.

Sustainable Business Approach

The Ethical Business Book is a practical, non-preachy guide to Business Sustainability. It was shortlisted and, subsequently, Highly Commended at The Business Book Awards 2020.

Understanding why sustainable and ethical behaviour is so critical to the future health of business, as well as society and the environment, is one of the first steps to becoming a better and more responsible organisation in the future.

But it's really important that these messages are shared throughout the organisation and don't just sit with a few environmentally conscious pioneers or champions. Only by educating and training everyone to understand their impact on other people and the planet, can long-term change happen.

Clear Communication

Many businesses are incapable of articulating their products and propositions in a compelling and distinctive way. This training is supported by two books. The Business Bullshit Book contains the world's most comprehensive collection of cliché, jargon and bullshit, diligently collected over 40 years. Amusing yet with a serious point, this collection highlights the danger and unsuitability of much language in business.

The Bullshit-Free Book analyses why bullshit is so dangerous for companies and explains how to eradicate it. After a review of the psychology behind unclear language, we resolve it with practical work on the company's communication materials. This ensures that all plans, proposals and customer communications are crystal clear in the future.

EXAMPLE CONTENT

IDENTIFYING UNCLEAR LANGUAGE

- Cliché and jargon red alert list
- Ubiquitous and identical materials

Persuasive Point of View

This blended course makes a vital business point. Many modern executives simply trade in information, but they lack a point of view. Confident Leadership

This blended course challenges people to understand their responsibilities as a leader, looking particularly at growth, communication, innovation and their relationships with their teams, and their customers or clients.

As well as an acute awareness of how they come across to others, the confident leader needs to ensure that they behave in an ethical manner at all times.

Attitude and approach come first, followed by the best principles behind selling skills, learning how excellent customer service works, and discussing the most troublesome aspects of customer handling.

Robust Negotiation

This blended course highlights the vital importance of clarity in business and negotiation. Offset by the imprecision and vagueness of much business language, it tutors attendees in the art of negotiation. This prevents them from giving away margin unnecessarily, or conceding unrealistic timings.

A series of steps form the basis of the approach, which they then play out in practical exercises in the afternoon.

SUSTAINABILITY (ESG)

audits, advice, training and communication

- We help businesses understand the commercial and moral benefits of sustainable and ethical business practice (or ESG) through our signature PLANET System (Panic, Learn, Agree, Native, Enact, Tell).
- **This is not an eco-war on commerce. Making a profit is not a bad thing, it's how you make the profit and what you do with it that matters.**
- We advise on how to make sustainability a genuine part of your business culture and day-to-day practice, not just a tick-box exercise (or race to be the 'least bad').
- In addition to our Planet System, we have a number of stand-alone training products aimed at putting ethical behaviour and long-term sustainability at the heart of your business:
 - Board / Senior Management Sustainability Workshop
 - Employee Engagement Training Programme
 - Marketing with Integrity Workshop

 - International boards

MENTORING

early career guidance and development

- Expert guidance for those in the first decade of their career, job or role provided by Rosie Duncan. This is aimed at those in the first 10 years of their career. They are most likely to be:
 - New joiners who need a helping hand and outside guidance, providing an ear for any awkward questions and challenges whilst they get used to their new colleagues and remote ways of working.
 - Those with the 'itch'. They are the talent that you want to keep and invest in, but they may be thinking of moving on.
 - Typically mentoring takes these three stages:
 1. **Where are you now?**
 2. **Development & habit forming**
 3. **Progressing in your career**

BOARD MENTORING

personal advice from someone who has been there

- It can be lonely at the top, and the pressures are often great. There are often issues that the CEO or other senior executives need to consider outside of the boardroom. So it pays to have access to a senior professional who has run companies and departments before.
- The frequency of interaction with a mentor can be whatever suits the individual – weekly, fortnightly, monthly, in person or over the phone or video.
- The list of issues to discuss is effectively endless but could include the behaviour of a board or leadership team, pressure from other group companies, structural issues, personality clashes, client handling, growth demands, staff problems, personal dilemmas, and many more.
- All of this is handled in a sensitive and highly confidential way, aiding a calmer perspective and greater clarity of direction.
